

Arquitectura de Infraestructura & Gobierno de TICs - 2024-01

Business Case 01 - Well Architecture Framework

Juan Hernández-Serrato - jushernandezse@unal.edu.co

General Context

1. Review this business cases:

<https://cloud.google.com/learn/certification/guides/professional-cloud-architect>

Choose one business case:

[EHR Healthcare](#)

[Helicopter Racing League](#)

[Mountkirk Games](#)

[TerramEarth](#)

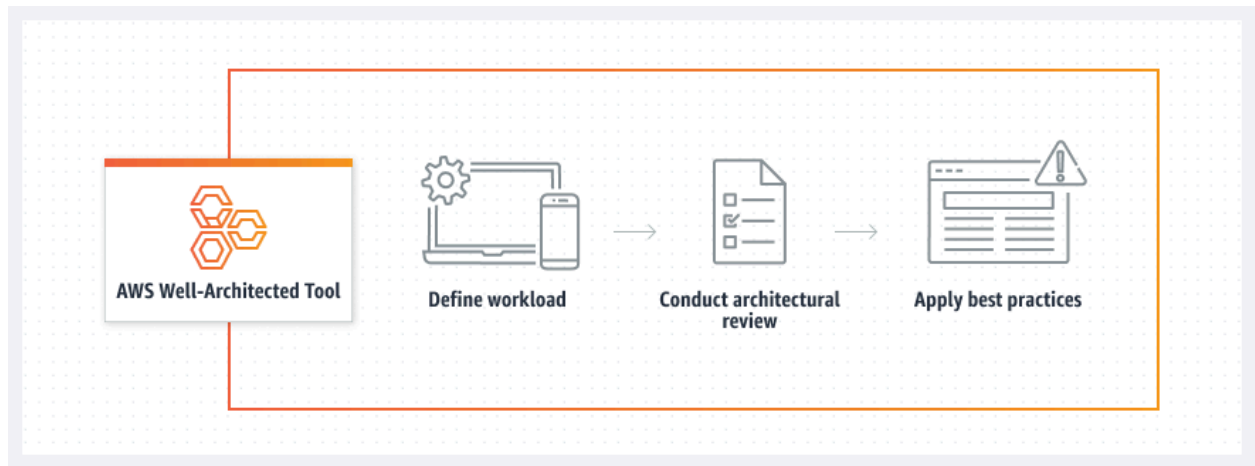

2. Propose an architecture for solving them.
3. Assess your proposal using the Well Architecture Framework of AWS.

For today, your mission is to read the business cases and choose one.

References:

The AWS Well-Architected Tool is designed to help you review the state of your applications and workloads against architectural best practices, identify opportunities for improvement, and track progress over time.
